

Outline for a two-day training module on City Wide Inclusive Sanitation Planning (CWIS) for Local Government Institutions (LGIs):

Day 1:

Session 1: Introduction to CWIS Planning

- Understanding the importance of City Wide Inclusive Sanitation (CWIS) planning
- Overview of CWIS systems and components
- Introduction to sustainable development concepts and principles

Session 2: CWIS Planning Process

- Understanding the process of CWIS planning
- Developing CWIS vision and mission statements
- Setting goals and objectives for CWIS strategies

Session 3: Stakeholder Engagement

- Understanding the importance of stakeholder engagement in CWIS planning
- Identifying and engaging stakeholders
- Developing stakeholder engagement strategies

Day 2:

Session 4: CWIS Implementation and Management

- Developing implementation plans for CWIS strategies
- Identifying resources and partnerships for effective implementation
- Developing performance monitoring and evaluation plans

Session 5: Financing CWIS

- Introduction to different financing models for CWIS
- Identifying potential financing sources for CWIS
- Developing a sustainable financing strategy for CWIS

Session 6: Communication and Reporting

- Developing communication strategies for CWIS strategies
- Identifying key performance indicators for CWIS strategies
- Developing sustainability reporting frameworks

The training module can be designed to include interactive activities, group discussions, and case studies to make it more engaging and interactive for the participants. The module can also include site visits to sanitation facilities and CWIS project sites to provide a practical understanding of CWIS systems and strategies.
